To learn more about the Collin County System of Care, please call **972-422-5939**.

ABOUT THE COLLIN COUNTY SYSTEM OF CARE

It can be difficult for children with mental health needs to get the services and supports to be happy, healthy, and successful. Communities in Collin County have come together to support children and families in a new way. We are working to organize services and supports so that families can choose things that work best for them.

Why is my family being recommended for system of care?

This program is for youth and families who may not have benefited from more traditional services. This model may be a good fit for youth struggling with their behavior at home or in school; those who need care from psychiatric hospitals, emergency rooms, or residential programs; or youth involved with the police or juvenile justice.

These services may help families who juggle requirements from multiple sources such as probation officers, child protective services caseworkers, therapists, and teachers. Services also are available for families and youth in residential treatment as they prepare to return home.

SERVICES & SUPPORTS

and Coaching

Transportation
Assistance

What makes System of Care different?

- Your family will have a plan of care that is unique to your family's needs.
- Your family will have a "Child and Family Team" made up of your family and a support group that meets at least once a month. This team may include family, friends, teachers, and professionals who want to help your child be successful.
- You will be able to choose from a full menu of services and supports provided in your child's home, school, and community.
- All services support your family's culture, beliefs, and traditions.

What will happen next?

- With your permission, we will send a referral to a representative from LifePath Systems, the community mental health center for the Collin County System of Care.
- A representative from LifePath Systems will contact you to set up an intake appointment.
- At that appointment, a staff member will meet with you to provide more information and talk with you about **what your family needs**.
- For more information about the Collin County System of Care, please contact TXSOC@lifepathsystems.org
