## Self-scoring directions, if used as self-test

1. Be certain you respond to all items.
2. On some items the scores need to be reversed. Next to your response write the reverse of that score (i.e. 0=0, 1=5, 2=4, 3=3). Reverse the scores on these 5 items: 1, 4, 15, 17 and 29. Please note that the value 0 is not reversed, as its value is always null.
3. Mark the items for scoring:
  - a. Put an **X** by the 10 items that form the **Compassion Satisfaction Scale**: 3, 6, 12, 16, 18, 20, 22, 24, 27, 30.
  - b. Put a **check** by the 10 items on the **Burnout Scale**: 1, 4, 8, 10, 15, 17, 19, 21, 26, 29.
  - c. **Circle** the 10 items on the **Trauma/Compassion Fatigue Scale**: 2, 5, 7, 9, 11, 13, 14, 23, 25, 28.
4. Add the numbers you wrote next to the items for each set of items and compare with the theoretical scores.
